CHILDREN AS CAREGIVERS
The Global Fight against Tuberculosis and HIV in Zambia
Jean Hunleth
“Hunleth presents a moving, yet clear- eyed, account of children's hitherto unacknowledged caregiving in the tuberculosis and HIV epidemic. Children as Caregivers is a spectacular demonstration of the vital importance of detailed ethnography for policy development.”
—Anthony Simpson, author of Boys to Men in the Shadow of AIDS: Masculinities and HIV Risk in Zambia

224 pp, 15 photographs and drawings • 978-0-8135-8803-2
Paperback • $34.95

HEALTH HUMANITIES READER
Edited by Therese Jones, Delese Wear, and Lester D. Friedman
“This is a landmark volume that sets the standard for any future collection in medical/ health humanities. It is by turns authoritative, funny, edgy, creative and personal—sometimes all in one piece.”
—Thomas R. Cole, University of Texas- Houston Medical School

416 pp • 12 photographs, 2 graphic chapters • 978-0-8135-6246-9
Paperback • $65.00

WORRIED SICK
How Stress Hurts Us and How to Bounce Back
Deborah Carr
“Carr takes the reader through a sea of scientific research and theories, Worried Sick answers many questions about how stress gets under our skin, makes us sick, and how and why people cope with stress differently. Included are several standard stress and coping checklists, allowing readers to gauge their own stress levels.”
124 pp • 2 figures, 4 tables • 978-0-8135-6537-8
Paperback • $14.95

• Named an Outstanding Title in the 2015 edition of the AAUP University Press Books for Public and Secondary School Libraries

FINDING THE RIGHT PSYCHIATRIST
A Guide for Discerning Consumers
Robert L. Taylor
“Dr. Taylor’s book bursts at the seams with explanations. If you are thinking of seeing a psychiatrist, there is no better guide on the market.”
—Daniel Carlat, Tufts School of Medicine
176 pp • 6 figures, 4 tables • 978-0-8135-6624-5 • Paperback • $19.95

IT’S NOT YOUR FAULT!
Strategies for Solving Toilet Training and Bedwetting Problems
Joseph Barone
“Dr. Barone takes on a subject that has befuddled pediatricians and parents for years. He does this in a straight forward fashion that parents can understand and easily apply to their children’s problems.”
—John P. Gearhart, MD, FAAP, FACS, The Johns Hopkins Hospital
176 pp • 6 figures, 8 tables • 978-0-8135-6992-5 • Paperback • $17.95

OUR AGING BODIES
Gary F. Merrill
“Merrill, a professor of cell biology and neuroscience at Rutgers University, presents abundantly fascinating scientific information about the human aging process. Written for a lay audience, this book describes in detail the adverse effects of unhealthy choices on human longevity. Our Aging Bodies explains how the human body develops, matures, ages, and declines and will benefit those interested in improving their health, well-being, and longevity.”
—Foreword Reviews
304 pp • 5 tables • 978-0-8135-7155-3
Paperback • $24.95

FRAMING FAT
Competing Constructions in Contemporary Culture
Samatha Kwan and Jennifer Graves
“Kwan and Graves were successful in challenging conventional beliefs about fat bodies. In so doing, they highlighted weight discrimination as a significant problem worthy of attention, as fat continues to be moralized, medicalized, and politicized.”
—Sex Roles
192 pp • 6 figures, 1 table • 978-0-8135-6991-5
Paperback • $25.95

GENETICS AND THE UNSETTLED PAST
The Collision of DNA, Race, and History
Edited by Keith Wailoo, Alondra Nelson, and Catherine Lee
“This startling and absolutely needed collection probes the political and historical meanings of DNA, shaping our understanding of human connections and ourselves.”
—Susan M. Reverby, Wellesley College
370 pp • 5 illustrations • 978-0-8135-5255-2
Paperback • $29.95

KILLER FAT
Media, Medicine, and Morals in the American “Obesity Epidemic”
Natalie Boero
“Killer Fat examines how and why obesity emerged as a major public health concern and national obsession in recent years. Boero enters the world of bariatric surgeries, Weight Watchers, and Overeaters Anonymous to show how common expectations of what bodies are supposed to look like help to determine what sorts of interventions and policies are considered urgent in containing this new kinds of disease.”
—Jennifer Froskel, McGill University
192 pp • 3 tables • 978-0-8135-6485-2
Paperback • $25.95

HEALTH & MEDICINE BOOKS

COMPLICATED LIVES
Girls, Parents, Drugs, and Juvenile Justice
Vera Lopez
“Excellent and flawlessly written, Complicated Lives is a crucial piece of work. Lopez brilliantly addresses the complex intersectional and myriad of challenges surrounding these girls, their parents, and the juvenile ‘justice’ system.”
—Joanne Belknap, author of The Invisible Woman: Gender, Crime, and Justice
230 pp • 2 figures, 3 tables • 978-0-8135-8654-0
Paperback • $34.95
Sale Price $24.46

ADDICTED TO REHAB
Race, Gender, and Drugs in the Era of Mass Incarceration
Allison McKim
“Addicted to Rehab is an important and timely contribution to the literature on mass incarceration, drug treatment, and social inequality. McKim provides crucial insight into these realms through her spectacular and engaging research.”
—Jill McCorkel, author of Breaking Women: Gender, Race, and the New Politics of Imprisonment
226 pp • 978-0-8135-8762-2
Paperback • $29.95
Sale Price $20.96

DADS, KIDS, AND FITNESS
A Father’s Guide to Family Health
William Marsiglio
“This engaging book is the first to focus specifically on the role that fathers can play promoting the health, fitness, and well-being of their children. Going beyond generalities, it offers inspiring and time-tested suggestions about the ways in which ‘new fathers’ can actively parent in every way.”
—Michael E. Lamb, author of The Role of the Father in Child Development
256 pp • 978-0-8135-8486-7 • Cloth • $25.95

**NURSING WITH A MESSAGE**
Public Health Demonstration Projects in New York City
Patricia D’Antonio

“Nursing with a Message is a tour de force—a sophisticated and nuanced book that subtly and powerfully shifts the received arguments and historiography on nursing.”
—Jennifer Gunn, University of Minnesota

210 pp • 3 photographs and 3 maps • 978-0-8135-7102-7
Paperback • $26.95

---

**TOXIC EXPOSURES**
Mustard Gas and the Health Consequences of World War II in the United States
Susan L. Smith

“Toxic Exposures is compelling and persuasive about the untoward outcomes of military testing. Smith’s work is sound and comprehensive, and her scholarship is impeccable.”
—Susan E. Lederer, University of Wisconsin-Madison

210 pp • 3 photographs and 3 maps • 978-0-8135-7102-7
Paperback • $26.95

---

**CLASSROOMS AND CLINICS**
Urban Schools and the Protection and Promotion of Child Health, 1870-1930
Richard A. Meckel

“Classrooms and Clinics is sure to stimulate a wealth of new scholarship on the history of schoolchildren's health.”
—Ann Pender, Virginia Tech

246 pp • 978-0-8135-5400-6
Paperback • $26.95

---

**COMRADES IN HEALTH**
U.S. Health Internationalists, Abroad and at Home
Edited by Anne-Emanuelle Birn and Theodore M. Brown

“Everybody who cares about health and social justice, internationally and in the U.S., should read this book!”
—Amy Goodman, host of Democracy Now! and 2008 winner Right Livelihood Award

350 pp • 28 illustrations, 1 map, 1 table • 978-0-8135-6120-2
Paperback • $29.95

---

**IN THE PUBLIC INTEREST**
Medical Licensing and the Disciplinary Process
Ruth Horowitz

“In the Public Interest is a fascinating study and a remarkable achievement from one of the top sociological ethnographers working in the field.”
—Calvin Morrill, University of California at Berkeley

268 pp • 978-0-8135-5426-6
Paperback • $29.95

---

**THE NEW NEIGHBORHOOD SENIOR CENTER**
Redefining Social and Service Roles for the Baby Boom Generation
Joyce Weil

“Weil asks interesting questions about structure and agency in relation to senior centers—particularly so in a time when delivery of services to older adults is changing. Her senior center is an important focal point for looking at the larger issues around funding, services, community, and the social connections of elders.”
—Meika Loe, author of Aging Our Way: Lessons for Living from 5 and Beyond

256 pp • 9 tables • 978-0-8135-6294-0
Paperback • $29.95
“An articulate, authoritative, and fascinating guided tour through the joys and intricacies of the diagnostic process, therapeutic challenges, and human interactions at the core of medical practice with an articulate, compassionate, and accomplished physician.”

—Jeremiah A. Barondess, M.D., President Emeritus, New York Academy of Medicine

PLAYING THE PONIES AND OTHER MEDICAL MYSTERIES SOLVED
Stuart B. Mushlin
192 pp • 978-0-8135-7055-6 • Cloth • $24.95T

AMERICA’S HEALTHCARE TRANSFORMATION
Strategies and Innovations
Edited by Robert A. Phillips
A revolution in American medicine is in full swing, one that will transform healthcare delivery for decades to come. In America’s Healthcare Transformation, eminent physician leader Robert A. Phillips brings together key thought leaders and trail-blazing practitioners, who provide a wide-ranging exploration of the strategies, innovations, and paradigm shifts that are driving this healthcare transformation. Capturing the vision of these leading innovators, this volume provides a roadmap to the future of American medicine.
225 pp • 978-0-8135-7222-2 • Cloth • $89.95X

ARTERIAL AND VENOUS ACCESS IN THE CARDIAC CATHETERIZATION LAB
Edited by Mazen Abu-Fadel
Written by an expert team of clinical practitioners, Arterial and Venous Access in the Cardiac Catheterization Lab presents thorough recommendations and instructions for accessing the arterial and venous beds. Covering everything from anesthesia to closures, the book offers a complete overview of each technique from start to finish, assessing its risks and advantages, while providing an up-to-date guide to the best medical technologies and materials. This work is an invaluable resource for a wide range of clinical personnel, from medical doctors to critical care nurses to vascular technicians.
200 pp • 978-0-8135-7216-1 • Cloth • $79.95X

CLINICAL TRIALS IN OVARIAN CANCER
Christine S. Walsh
Collecting and synthesizing research findings from a wide array of medical journal articles and book chapters, Clinical Trials in Ovarian Cancer provides physicians with an invaluable resource. Gynecologic oncologist Christine S. Walsh systematically outlines each of the seminal Phase III trials that have shaped the treatment of ovarian cancers, detailing the rationale for the trial, the patient population studied, treatment delivery methods, efficacy, toxicity, and trial conclusions. She provides a clear overview of established treatments, as well as still-controversial and experimental approaches.
